PAYMENT PLANS

SRA has partnered with Tuition Options (TuitionOptions.com), a private company providing financial service agreements for colleges, universities and schools throughout the United States for nearly 40 years, to make payment plans available to qualifying students.

These are not loans, they are legally-binding financial contracts between the school and the student in which the student agrees to make monthly tuition installments (from 9–30 months) until their outstanding tuition balance is paid in full. All monthly and additional principal payments made while the student is enrolled in school are completely interest free.

The total course costs are \$24,440/program which includes tuition and a sizable package of educational items. At the time of enrollment, a 50% tuition down payment plus the costs of all educational items is due: Audio Engineering (\$13,405) and Sound Design for Video Games (\$13,730). Monthly payments begin within 30 days of a course start date.

Application Requirements & Steps:

1. Applicants must first apply to become a SRA student and be offered enrollment for an upcoming program.
2. A credit application must be completed and returned to SRA. Tuition Options to review and determine eligibility.
3. All students under 25 will require a cosigner.
